Platform Lift Couture

Platform lift Couture

Mylyft premium open aspect platform lifts can be found in Britain's finest buildings, architectural icons and A-list properties.

A low profile Mylyft Autograph model with a 1450mm x 1100mm platform with frameless glass gates and barriers and matt black bellows. The platform is finished in a black pearl tread plate. This lift is installed at Selfridges, London.

Situated in one of London's most exclusive addresses this Mylyft Autograph TB2000 features a custom metallic champagne finish to complement the exterior of the property.

Insight and Inspiration
We rise by lifting others

This low profile lift is installed within a shallow pit directly above the crypt within this beautiful historical icon

Platform lift Couture

From Architect's Concept Sketch to Completion

Working in close liaison with the architect and client under very strict design guidelines this stunning Mylyft CUBE model was developed. A beautiful example of a lift that remains honest to the original architecture within a wonderful A-list property.

Platform lift Couture

Designed to complement the built environment and enhance disabled people's lives.

This through car configuration lift features black perforated square punched sheet steel gates and barriers to complement the exposed ironwork of the industrial style interior design of this Digital District office space

This Mylyft CUBE travels within a frameless glass enclosure and is fitted with a 70mm deep platform tray which accommodates hand-cut, Italian marble.

Exceptionally discreet VIP access in this five star resort & spa

Platform lift Couture

This lift is linked to the automatic full height upper level door and is connected to the building's access control system. The complete unit is suspended over the lightwell in a 100mm deep tray mounted on I-beams below.

Insight & Inspiration We rise by lifting others

Cathedrals and churches are very important community hubs. The introduction of a platform lift ensures everyone can enjoy the churches' facilities. This Mylyft Autograph TM1500 is inset with York stone.

The Mylyft Heritage Collection is designed to complement the built environment. Spearhead finials and detailing can be produced to match existing balustrades.

Our through-floor lift with a 3M travel and frameless perimeter glass enclosure at the upper level. The lift is designed not to distract from the immediate architecture.

Platform Lift Couture

As featured in an extensive article in Elevator World Magazine. The Mylyft Heritage model is located at Sir Christopher Wren's Chapter House at St. Paul's Cathedral. To ensure historical accuracy we cast the finials and spearheads from Sir Christopher's originals!

The art of elevation

The evolution of elevation

Insight and Inspiration We rise by lifting others

This is one of six stadium compliant lifts installed at Old Trafford, home to Manchester United to increase their wheelchair capacity to 300 spaces. Each lift has removable aluminium barriers. When the lifts are not in use they are lowered below the terraced seating.

Gates and
Barriers

Platform lift Couture

A glass dividing screen separates and protects the lift from the steps. The lift has a 100mm deep platform tray to accommodate a pour polished concrete finish. This Mylyft Autograph has controls integrated into the grab bar.

Platform lift Couture

From architect's vision to completion.
The original design intent sketch

As part of a major refurbishment and conservation programme a new creative direction for this cathedral's disability access was agreed. A bold approach that would be honest to the building's stunning architecture and would reflect the centuries of innovative architectural design. This brave and contemporary platform lift was chosen which includes a Lyfthaus bridging link. We are thrilled with the results.

Finishes Available

Beautiful in Bronze

Finished in a bronze metallic pearlescent powder coat with bronze buttons this Mylyft TBD2000 complements the bronze fin screens in this reception area perfectly. An upper level balcony style gate matches beautifully.

Architects are our products' principle specifiers.
Keeping up with continually evolving architectural
trends is essential.

Platform lift Couture

All the materials including the fretwork design, steel angles and sections were specified by the architectural and interior design team for this “one-off” platform lift creation. This very special lift complements the interior styling perfectly.

This platform lift was designed by the architect,
Lyfthaus made it happen.

TV personality and Pointless presenter Alexander Armstrong at the grand unveiling.

Platform lift Couture

Located at the world famous Lit & Phil library in Newcastle this was one of the first public buildings in Britain to allow entry to women! The theme of allowing access for all has continued with the installation of a Mylyft Autograph TLD2000. The lift which is located in a very busy intersection is shielded by an etched glass screen.

D. J. Lythaus

Designed to complement the built environment and enhance people's lives. Style and practicality with high performance and bespoke adaptability.

This multi use space which includes offices, lecture halls, meeting rooms, restaurants and a bar uses this Mylyft Autograph platform lift to access the upper ground floor where the passenger lifts are located.

Platform Lift Couture

Situated in the heart of London's Square Mile this Heritage platform lift has spearhead finials and railings replicated from existing street side balustrades to ensure that the lift is as discreet as possible. The platform is finished with matching York stone and the rear barriers and upper gate are in frameless glass. The platform has sheet steel scissor protection and bi-parting gates

Insight and Inspiration We rise by lifting others

Lightwell basement platform lifts are a thriving market sector for Lyfthaus as property owners choose to make better use of this valuable space. To passing pedestrians these lifts are virtually invisible. Street level balustrades are adapted to form interlocked gates. Flooring can match adjacent surfaces.

Insight and Inspiration We rise by lifting others

All Mylyft Collection platform lifts are designed for constant operation. No matter how busy the traffic flow your Mylyft can handle it! This lift is installed in a large office complex with many disabled employees and visitors.

Like all pioneers, the Lyfthaus founders' approach to platform lift design had to be unique. To be different. They wanted Lyfthaus to stand out by standing for something different and for many years the company has done just that. Year after year, new platform lifts and refreshed designs have been introduced, each as impressive as the last, keeping pace with continually evolving architectural trends. As time has progressed a company style has emerged and now the Mylyft Collection created by Lyfthaus of Cambridge is internationally recognised as the open aspect platform lift industry's leader in stylish contemporary design, technical innovation and bespoke adaptability. All proudly made near Cambridge, England.
