V.A Private Client

Lyfthaus

Lyfthaus premium open aspect platform lifts can be found in Britain's finest buildings, architectural icons and A-list properties

Raised in Cambridge. Supplied nationwide

Lyfthaus

The Lyfthaus Technology Centre near Cambridge

Lyfthaus have a well proven team of experienced and innovative design engineers and creative thinkers who deal solely with the stylish and refined tastes of architectural clients. Placing their clients' needs at the heart of every design, the Lyfthaus objective is to exceed clients' expectations, delighting them by providing an individual and unique service that delivers an uncompromisingly high standard of design, fit and finish to every project.

Lyfthaus designs are never about us. Our clients are our focus. Our designers are not only passionate, skilled and experienced, but are excellent listeners and communicators. We take the time to thoroughly understand our clients and what they want from each individual platform lift project. Only then do we start to think about the design itself.

We are the lift industry's foremost creative designers providing architects with an unparalleled freedom of choice and the source of the very best architecturally inspired platform lift design solutions. The Lyfthaus team develop trusted relationships that see clients returning time after time, year after year.

We combine stimulating new trends and finishes with a client's key requirements to guarantee a design that is exclusive, reflecting their own property style and requirements.

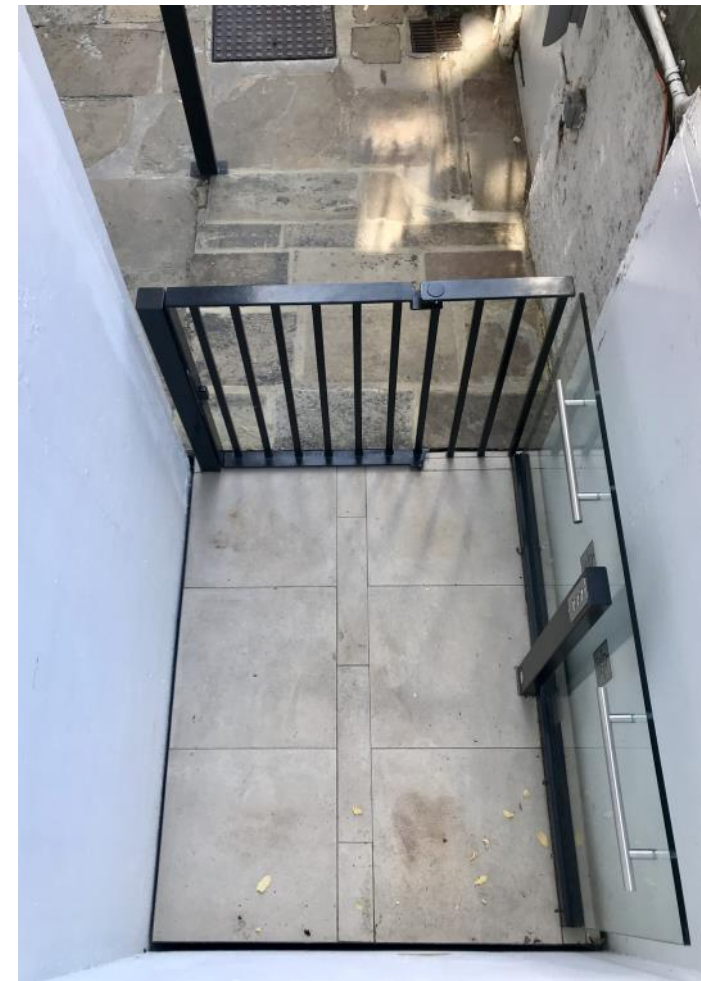

Lyfthaus offers expert knowledge and advice, using tailor made designs, hand-crafted studio based manufacturing methods and luxury finishes enabling clients to realise the full potential of their new bespoke platform lift.

A very challenging installation within a very restricted site. This three stop, three entrance point lightwell lift features gates and balustrades that complement the original Victorian wrought iron-works perfectly. The lift is exceptionally discreet, and dissolves into it's backdrop beautifully. This was an essential part of the planning consent due to the historic importance of this location which is often used for period television and film including Downton Abbey and the latest Wonder Woman movie.

Disabled access three stop , three entrance lightwell platform lift

Lifthaus

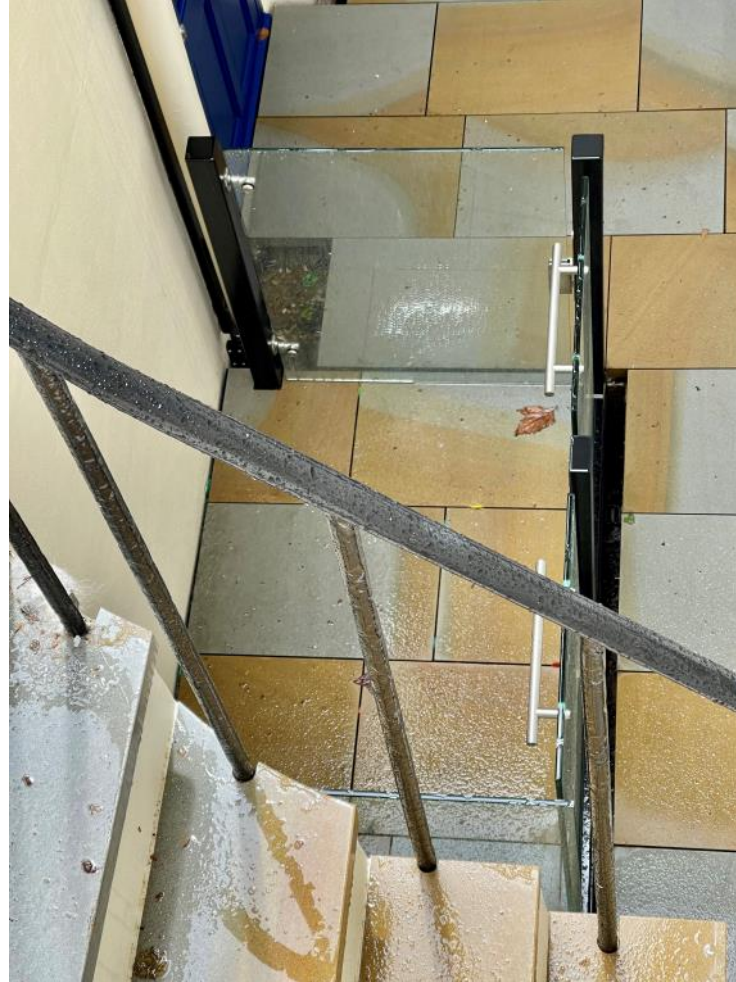

Disabled access, three stop lightwell platform lift

This lightwell basement lift transports patients from street level up to entrance level and also down to basement level - one below zero. We have adapted the original street level balustrade to form an unobtrusive interlocked gate.

Lifthaus

Working in close liaison with the architect and client under very strict design guidelines this exceptionally discreet platform lift at a central London Embassy in South Kensington is used to transport visitors from street level to the visa office at basement level.

Lifthouse

Disabled access, two stop adjacent entry lightwell platform lift

Another central London Embassy project. This property is directly opposite Hyde Park has undergone extensive renovation work which included the provision of disabled access to all levels. The project included adaption of the street level balustrade into an interlocked access gate. The lift is fitted with stone tiles to match adjacent surfaces.

Disabled access, adjacent entry lightwell platform lift

Lifthouse

An adjacent entry disabled access lightwell lift set within a very restricted space.

Disabled access, two stop adjacent entry lightwell platform lift

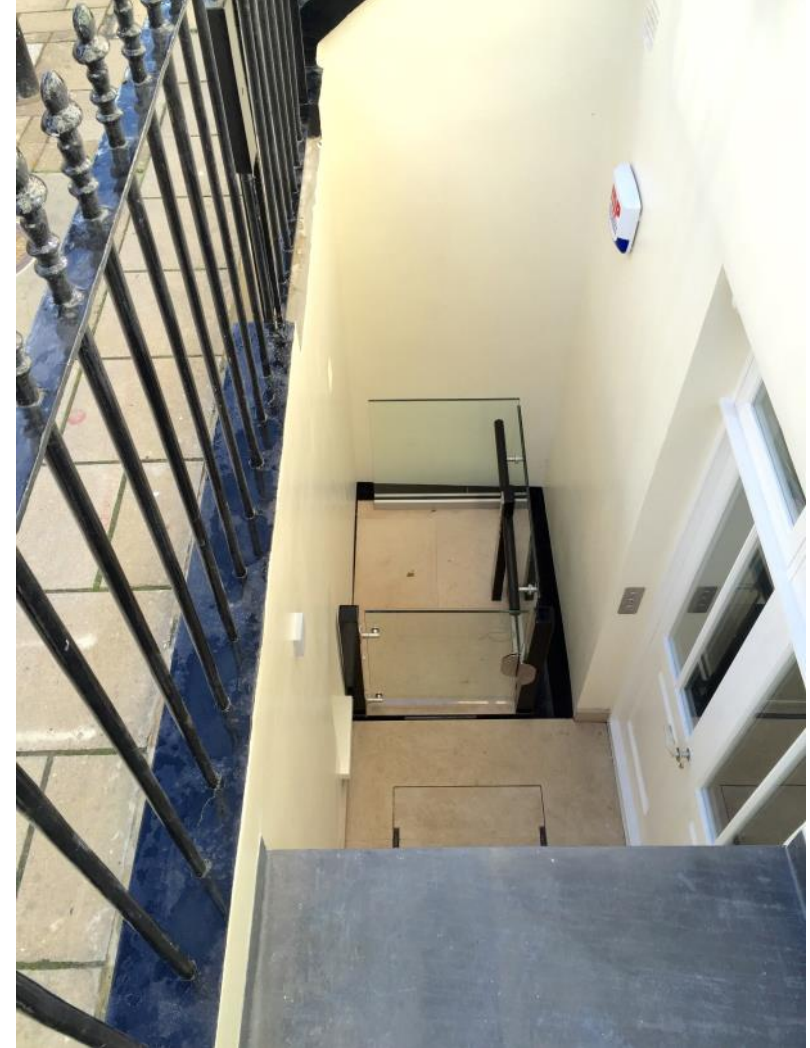

This low rise platform lift is mounted on a bridge directly over the lightwell. Basement users can walk under the lift. This lift features replica railings, bi-parting platform gate and a solid/sheet apron.

Lifthouse

Disabled access two stop, lightwell bridge platform lift

Lysthaus

Disabled access, two stop adjacent entry porters chair platform lift

This is one of our smallest lightwell platforms lifts with a platform measuring just 1300mm x 700mm. It is used with a porters chair to transport the properties owners disabled mother to her private, self contained basement apartment.

Disabled access, two stop through car platform lift

Hidden out-of-sight in this lightwell is disabled access into the basement of this language school. The lift has pin code activation for the schools disabled students

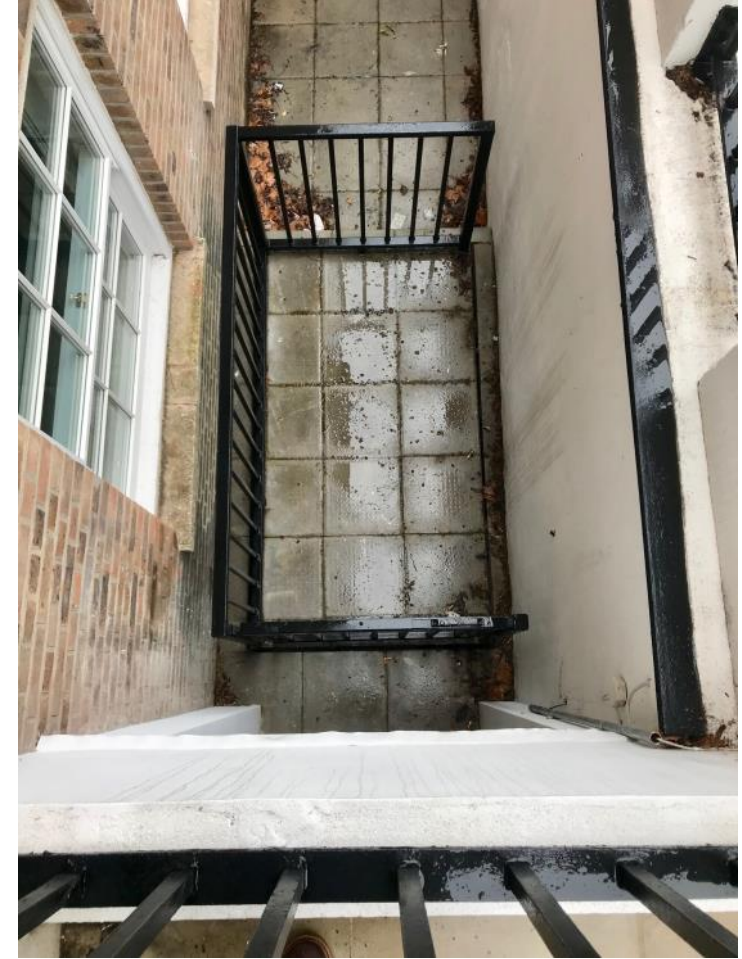

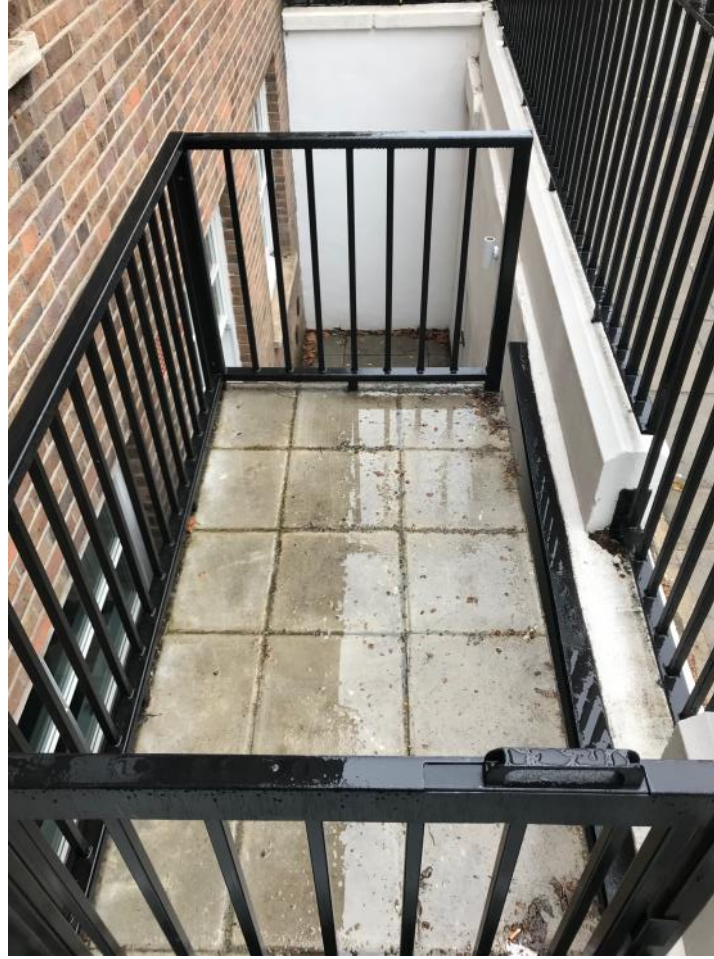

This embassy in London's Mayfair has its platform lift mounted on a lightwell bridge. The lift raises to reception level via a full height bullet and blast proof glass door which is interlocked to the lift's movement.

Lifthouse

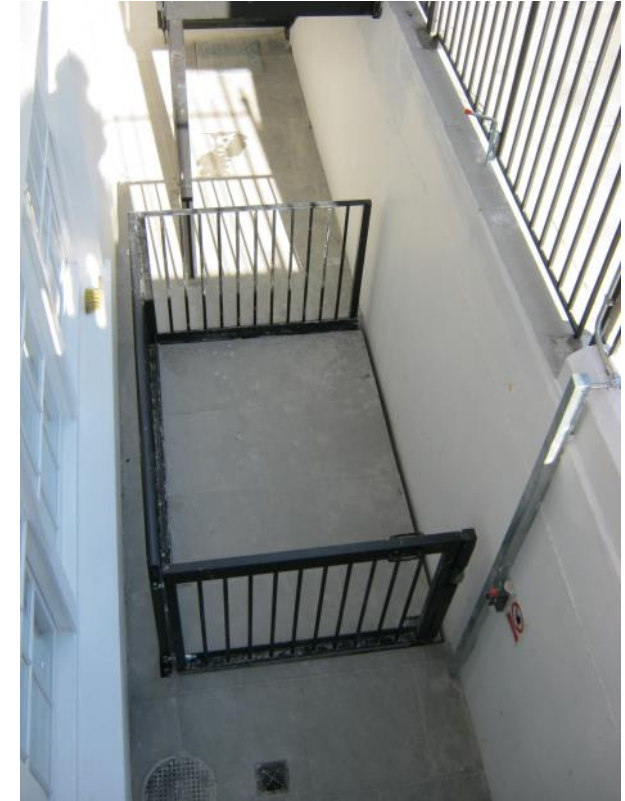

Attended goods elevator lightwell platform lift for bins and bikes

This attended goods lifts is another example of a lift that's virtually invisible to passing pedestrians. The lift provides tenants with bin and bike transport between street level and basement bike and bin storage.

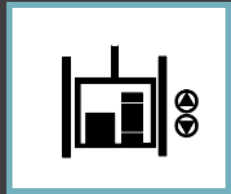

Lifthaus

Attended goods elevator lightwell platform lift for bins and bikes

Lijfthaus

Providing vertical transport for bins and bikes as well as office, home and kitchen supplies are all popular uses for our lightwell goods elevators. This platform lift with bi-parting gates is used for 1100ltr Euro bins which are stored in the underground vault.

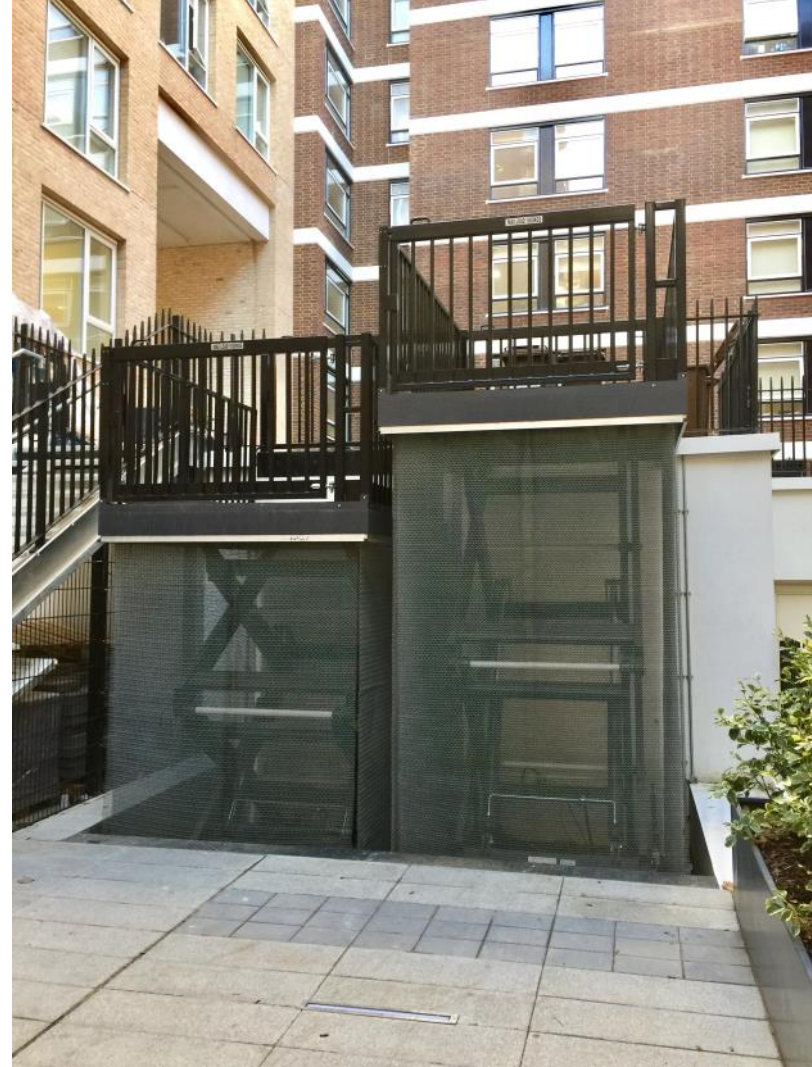

Location in glitzy St. James, a stones throw from the Ritz Hotel. This goods only lift is used to transport refuse and recycling from basement to street level in this office building. The interlocked balustrade gate has been designed to complement the contemporary railings perfectly.

Lifthouse

Goods elevator lightwell platform lift for bins

Situated in a large courtyard with a 3M high boundary these lifts are used to transport bins in this busy student accommodation complex. Dozens of bins are collected everyday, each lift can carry nine 440ltr domestic style wheelie bins.

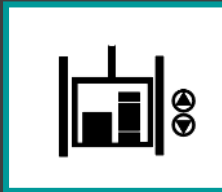

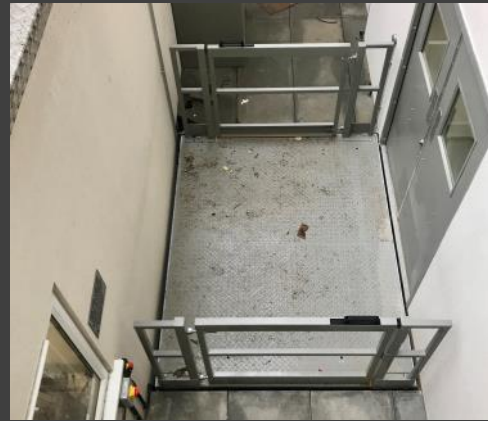

Goods elevator lightwell platform lifts for bins

Lifthouse

A prestigious residence in Surrey is home to this goods only elevator. Its used to deliver kitchen supplies and remove kitchen waste.

Goods elevator lightwell platform lift for bins and catering supplies

Lifthaus

Most lightwell lifts are delivered and positioned using a crane equipped vehicle.

Lifthaus

Like all pioneers, the Lyfthaus founders' approach to platform lift design had to be unique. To be different. They wanted Lyfthaus to stand out by standing for something different and for many years the company has done just that. Year after year, new platform lifts and refreshed designs have been introduced, each as impressive as the last, keeping pace with continually evolving architectural trends. As time has progressed a company style has emerged and now The Collection created by Lyfthaus of Cambridge is internationally recognised as the open aspect platform lift industry's leader in stylish contemporary design, technical innovation and bespoke adaptability.
