Lifthouse

Like all pioneers, the Lyfthaus founders' approach to platform lift design had to be unique. To be different. They wanted Lyfthaus to stand out by standing for something different and for many years the company has done just that. Year after year, new platform lifts and refreshed designs have been introduced, each as impressive as the last, keeping pace with continually evolving architectural trends. As time has progressed a company style has emerged and now The Collection created by Lyfthaus of Cambridge is internationally recognised as the open aspect platform lift industry's leader in stylish contemporary design, technical innovation and bespoke adaptability.
